# TABLE OF CONTENTS

INTRODUCTORY NOTE		vii
of Participants		ix
of Contributors		xv
WEATHERING RATES AND MAJOR TRANSPORT PROCESSES — AN INTRODUCTION	A. Lerman	1
THE CONTROL OF WEATHERING OF SILICATE MINERALS AT ROOM TEMPERATURE AND PRESSURE	R. Wollast and Lei Chou	11
MICROBIAL WEATHERING PROCESSES IN NATURAL ENVIRONMENTS	J. Berthelin	33
SOILS AND THE EVOLUTION OF THE ATMOSPHERE: PART I	H. D. Holland and E. A. Zbinden	61
SOIL EROSION AND MASS MOVEMENT IN RELATION TO WEATHERING AND GEOCHEMICAL CYCLES	O. Slaymaker	83
CLAY — ITS FORMATION, TRANSPORT AND ECONOMIC SIGNIFICANCE	J. A. Catt	113
SEDIMENTARY BASINS AS INDICATORS OF CHANGES IN LAND EROSION RATES	R. L. Thomas	143
MOVEMENT AND STORAGE OF SEDIMENT IN RIVER SYSTEMS	R. H. Meade	165
INFLUENCE OF ACID RAIN ON WEATHERING RATES	R. F. Wright	181
FRESHWATER CARBON AND THE WEATHERING CYCLE	S. Kempe	197
