

[25] **Acknowledgments.** We thank Drew N. Barringer, Barringer Crater Company, and Brad Andes, Meteor Crater Enterprises, for granting permission to conduct the field studies. P.S. thanks the staff of Meteor Crater Enterprises; Greg and Mandy for their help throughout the fieldwork; the Department of Science and Technology, Government of India for awarding the BOYSCOST Fellowship; James W. Head for hosting the visit to Brown University; Anne Cote, Nancy Christy, and William Collins for support; T. Seshunarayana for encouragement and support; V. P. Dimri, Director, NGRI for permission to publish this paper. Special thanks are due to James W. Head and Peter H. Schultz for stimulating discussions. Patrick Barosh generously shared his experience of the geologic mapping of Nevada explosion craters, which is gratefully acknowledged. Thanks are due to the Associate Editor (Jeffrey Plescia) and the reviewers (Chris Okubo and David King Jr.) for very helpful reviews. LPI contribution 1387.
