

Fig. 6a. Venera image of type I boundary between tessera terrain and surrounding plains, located in southeastern Tellus Regio. Image is approximately 600 km E-W by 500 km N-S and is centered on 32.5°N, 85°E. Note the subdued appearance of tessera structures near the boundary, particularly in the upper central part of the image.

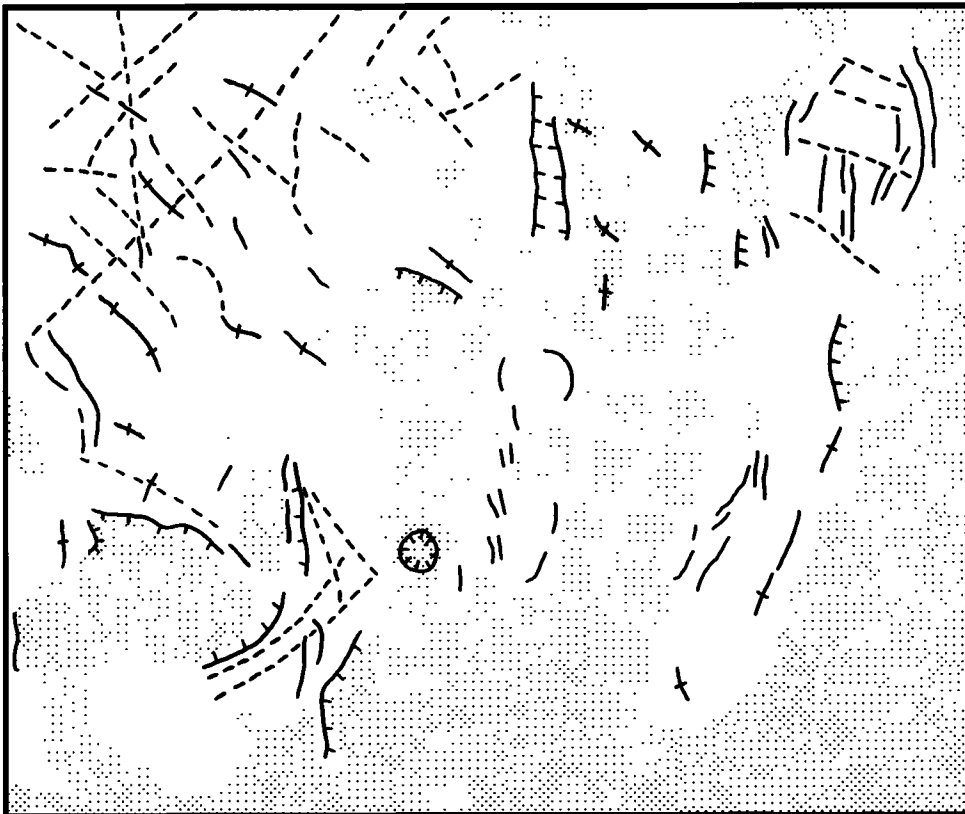

Fig. 6b. Sketch map of the region in Figure 6a. Structural symbols are the same as those used in Figure 5b. The stippled pattern represents plains regions.
