

**Acknowledgments.** We are grateful to the staff of Arecibo Observatory for their assistance in various aspects of this project. In particular, we would like to thank R. Velez, T. Crespo, A. Hine, and G. Giles. We would also like to thank T. Forni and J. Chandler for their assistance in the ephemeris generation. One of us (I.I.S.) gratefully acknowledges support from National Science Foundation grant PHY-8243330. D.L.B. wishes to thank the staff and administration of Arecibo Observatory for their help and for support during his stay. A portion of this work was supported by NASA grant NGR-40-002-116 from the Planetary Geology Program to J.W.H. The National Astronomy and Ionosphere Center (Arecibo Observatory) is operated by Cornell University under contract with the National Science Foundation and with support from the National Aeronautics and Space Administration.
