

Table SII. 1. Thermal denaturation of duplexes of the native, ENA, parent carba-ENA and 8'-substituted carba-ENA modified AONs with complementary RNA or DNA ^a	16
Figure SII. 14. Denaturing PAGE analysis of the SVPDE degradation of AONs with modified carba-LNA analogues.....	18
Discussion about Stability of Carba-ENA Analogues-Modified AONs in Blood Serum.	20
Figure SII. 15. Autoradiograms of 20% denaturing PAGE, showing the cleavage kinetics of target RNA in AON:RNA hydrides by <i>E. coli</i> RNase H1	23
Individual reaction steps, work-up, and product characterization for the intermediates 16b, 17b, 21b, 22a/b, 25, 28, 29, ENA and the characterization for final amidites 18a/b, 30a/b, 31, 32.....	27
Procedure of ENA synthesis	35
Figure SII. 16. ¹ H NMR spectrum of compound 34.....	38
Figure SII. 17. ¹³ C NMR spectrum of compound 34.....	39
Figure SII. 18. Expansion of COSY spectrum of compound 34	40
Figure SII. 19. HMQC spectrum of compound 34	41
Figure SII. 20. HMBC spectrum of compound 34	42
Figure SII. 21. ¹ H NMR spectrum of compound 36.....	43
Figure SII. 22. ³¹ P NMR spectrum of compound 37	44
