

Pediatric Resident Research Grant Progress Report Guidelines

The goal of the McMaster Pediatric Resident Grants Program is to support research amongst our residents. Please provide an analysis of the work done in the past 12 months of the project using the following questions as a guide. This report should be 2-4 pages long.

Project Details:

1. Project name and principal investigator:
2. Reporting period:
3. Project aim:
4. Amount received:
5. Amount spent, compared to the amount approved:
6. Have you received other funding for this project? If so, please list and explain if there is any overlap with funding from the resident research grant.
7. What has been accomplished over the past 12 months? How does this compare with expectations?
8. What are the expected final outcomes at the end of the study?
9. What publications, abstracts, presentations or other materials have resulted from this study so far? Please enclose copies if possible, or send them when they become available.
10. Any additional information?

Please send this report at the end of the 12 month granting period (August 2007). If you have any question, please feel free to contact the Resident Research committee.
