

Title of Presentation

Presenter

Supervisor (if applicable)

Co-investigators and Research Team

Outline of Presentation

- 3 Questions for the Group
- Research Question
- Background and Rationale
- Methodology
- Current Status of project
- Lessons learnt

Specific Questions for the Group

- Start with presenting at least 3 focused questions that you would like answered by the end of the RR session
- Present the questions first, so that the audience can bear these in mind during the course of the presentation.
- Re-present each question throughout your presentation at the appropriate sections, or at the end, for specific feedback

Background

- Limit to 3-4 slides

Rationale for this Research Project

- Why is this research important/interesting
- Specific Objectives of the research project
- Limit to 1-2 slides

Research Question

- Try to frame the research question in the “PICOT” format:
 - Target **P**opulation
 - Intervention of Interest
 - **C**omparator Intervention
 - **O**utcomes of interest
 - **T**imeframe over which the outcomes are assessed

Methods

- Study design
- Outcomes of interest
 - Primary
 - Secondary
- Sample Size
- Analysis Plan

Questions for the Group

- You may repose your specific questions for the group after the methods, or during the course of the methods, depending on how or when you would like them answered

Current status of Project

- 1 slide
- Future plans/milestones

Lessons Learnt

- Feel free to share 2 or 3 lessons you have learnt during the course of this project, that you would like to share with your colleagues. Your experience is valuable, and contributes to our education
