

**THE ROYAL SOCIETY OF CHEMISTRY ("the RSC")
COPYRIGHT LICENCE**

The Work (title and brief description of the submission):

The Author(s) (names and affiliations) - Please note: All Authors must have been informed of the full content of the paper at the time of submission.

If the Author(s) does not own the copyright in the Work, state who the Owner is (giving name and address) and state why the Author(s) does not own the copyright in the Work (*e.g.* the Author(s) wrote the Work in the course of employment by the Owner).

If the Author(s) is the Owner then, where used below, "the Owner" means the Author(s).

The Work consists of the paper or other contribution ("the Paper") and the accompanying supplementary material ("the Supplementary Material").

1. In consideration of the RSC evaluating the Work for publication by the RSC (and publishing the Work if it so decides) the Owner grants to the RSC the exclusive right and licence throughout the world to edit, adapt, translate, reproduce and publish the Paper and a non-exclusive right and licence throughout the world to reproduce and publish the Supplementary Material in all formats, in all media and by all means (whether now existing or in future devised). Such licences are for the full term of copyright in the Work throughout the world (including all renewals, extensions and reversions). Such licences are freely transferable by the RSC and includes the right to sub-licence.

2. The Owner warrants that:

(a) the Work is the original work of the Author(s) and not copied (in whole or in part) from any other work or matter or (if the Work includes copyright works of persons other than the Author(s)) the Work is substantially the original work of the Author(s) and all necessary permissions have been obtained for use of such copyright works of such other persons.

(b) the Work has not been and will not prior to publication by the RSC be published.

(c) the exercise of the rights granted to the RSC by this Licence will not infringe the copyright of any person or result in any breach of confidentiality or the breach of any contract or of any law.

3. Notwithstanding anything to the contrary contained in this Licence:

(a) this Licence shall take effect as a non-exclusive licence in respect of any parts of the Work as were written by an Author(s) in the course of employment by the British Government.

(b) this Licence shall take effect only to the extent permitted by the laws of the United States of America if and to the extent that the Work or any part of the Work was written by an Author(s) in the course of employment by the United States Government.

4. The Owner may reproduce/republish portions of the Paper without seeking permission from the RSC, provided that any republication is accompanied by an acknowledgement in the form:

(original citation) – Reproduced by permission of The Royal Society of Chemistry

To republish/reproduce the whole Paper, the Owner must submit a written request to the RSC. The RSC will agree to any reasonable request, provided that the Owner ensures that any such republication is accompanied by an acknowledgement (in the above form) of first publication of the Paper by the RSC.

5. If the RSC notifies the Owner in writing that it will not be publishing the Work then this Licence shall forthwith and automatically terminate (and all rights granted shall revert to the Owner).

6. This Licence shall be governed in all respects by English law.

SIGNED by the Owner or by someone duly authorised to sign for the Owner:

Date:

Notes on Copyright for Contributors to the Journals of the Royal Society of Chemistry ("the RSC")

These Notes accompany and should be read alongside the RSC's Copyright Licence above.

IMPORTANT: Please complete and return to the RSC the above Copyright Licence. The RSC will not publish any contribution until it has received a duly completed Copyright Licence.

These notes apply to the following RSC journals:

- 1) The Analyst
- 2) Annual Reports
- 3) Chemical Communications
- 4) Chemical Society Reviews
- 5) CrystEngComm
- 6) Faraday Discussions
- 7) Green Chemistry
- 8) Journal of Analytical Atomic Spectrometry
- 9) Journal of the Chemical Society:
Dalton Transactions
Perkin Transactions 1
Perkin Transactions 2
- 10) Journal of Environmental Monitoring
- 11) Journal of Materials Chemistry
- 12) Lab on a Chip
- 13) Natural Product Reports
- 14) PhysChemComm

Note 1 We have three main reasons for requiring authors to grant to the RSC the licences specified above in respect of their contributions to the RSC's journals:

- (a) We require it as our authority to publish.
- (b) It helps us to protect the material we publish against unauthorised copying and other misuse.
- (c) It ensures that requests from third parties to republish all or part of the material we publish can be efficiently dealt with. Such requests are increasingly significant as electronic delivery media become more important.

Note 2 If you are an employee of the US Government and your contribution was written in that capacity the Copyright Licence will take effect only to the extent allowed by US law.

Note 3 If you are an employee of the British Government and your contribution was written in that capacity then the Copyright Licence will take effect as a *non-exclusive* licence and copyright in your contribution will be reserved to the Crown.

Note 4 Even though the Copyright Licence for the Paper is exclusive, you (or the copyright owner if you do not own the copyright) may reproduce portions of your contribution without seeking permission from the RSC, or as long as any reproduction is accompanied by an acknowledgement in the form stated in 4 above. We will agree to any reasonable request which you (or the copyright owner) make to us in writing for permission to republish your contribution in full.

Note 5 The RSC holds personal information on a computerised database for publications administration purposes. We may from time to time send you material relevant to your research interests, to provide information about the RSC's products, or possibly to seek your advice on new products. If you do not wish to receive this or remain on our mailing list please contact the Production Administrative Officer.
