Dear Medical Student,

Thank you for your interest in the pediatric clerkship elective at McMaster Children's Hospital.

On your first day please go to Ward 3C (located on the 3rd floor in the Red Area of McMaster University Medical Centre). Please arrive at 9am on your first day. Upon arrival identify yourself as an elective student and ask for the senior pediatric resident to be paged (pager 1645).

The senior pediatric resident will be responsible for orienting you to the areas of McMaster Children's Hospital, as well as introducing you to the other residents on your team as well as the attending pediatrician. On your first day you can shadow one of the interns, especially if you are visiting from another medical school. The senior resident will also show you where teaching is held as well as take you to the office of Skye Levely for a copy of the Pediatric Survival Handbook, complementary of the program.

Please ensure that all the appropriate paperwork as well as possession of appropriate identification is completed prior to arrival for your elective.

All information pertaining to this elective can be found under the clerkship elective heading at www.macpeds.com.

If there are any issues during your elective please page me at pager 2555.

Regards,

Andrew Latchman MD, FAAP, FRCP(C)
General Pediatrician
Assistant Professor, Pediatrics
McMaster Children's Hospital
McMaster University
