

**Figure S1C** Sequence Alignment of Human UNC119, PrBP/δ, and RhoGDI. Only C-terminal residues of UNC119 (60-240) and RhoGDI (41-204) are shown. β-strands are depicted as large red arrows for UNC119 and are underlined in red for PrBP/δ and RhoGDI. Identical residues are highlighted blue and similar residues gray.
