

Contents

I	MATHEMATICS	1
1	Topological Space	1
2	Metric Space	2
3	Convex Sets	7
4	Correspondences	9
5	Maximum Theorem	14
6	KKM Theorem, Existence of Maximal Element	15
7	Selection Theorems	16
8	Fixed Point Theorems	16
9	Probability	17
10	Information Structure	20
11	References	25
II	GENERAL EQUILIBRIUM	26
1	Walrasian Equilibrium	26
1.1	Preferences	26
1.2	Gale-Debreu-Nikaido Lemma	29
1.3	Existence of Walrasian Equilibrium	30
1.4	Equilibrium in an Abstract Economy	31
1.5	Uniqueness of Walrasian Equilibrium	35
1.6	Stability of Walrasian Equilibrium	37
1.7	Optimality of Walrasian Equilibrium	39
1.7.1	Definitions	39
1.7.2	Optimality of Equilibria	40
1.7.3	Optimality of Quasi-Equilibria	42
1.7.4	Equilibrium Properties of Optima	43
1.7.5	Reviews	44
