

2	Core, Value, and Fair Allocations	46
2.1	Core Allocations	46
2.2	Core Equivalence in a Large Economy	48
2.3	Value Allocations	53
2.4	Manipulability	56
2.5	Fair Allocations	58
2.6	Strong Nash Equilibrium	60
3	Core and Value in Differential Information Economies	62
3.1	Core with Differential Information	62
3.2	Incentive Compatibility of the Cores.	70
3.3	Nash Equilibrium and α -Core with Differential Information	72
3.4	Value Allocation with Differential Information	73
4	On Extensive Form Implementation of Contracts in differential Infor-	
	mation Economies	80
4.1	Differential information economy	80
4.2	Private core, weak fine core, Radner equilibrium, REE and weak fine value	81
4.3	Incentive compatibility	87
4.4	Non-implementation of free disposal private core and Radner equilibria, and of weak fine core allocations	93
4.5	Implementation of private core and Radner equilibria through the courts; implementation of weak fine core	98
4.6	Implementation of non-free disposal private core through an endogenous intermediary	102
4.7	Concluding remarks	106
4.8	Appendix: A note on PBE.	107
