

X

Interdisciplinary sampling strategies for detection and characterization of harmful algal blooms

Grace C. Chang and Tommy D. Dickey

X.1 Introduction	X
X.2 Processes in the coastal ocean	X
X.2.1 Physical processes	X
X.2.2 Biological processes	X
X.2.3 Chemical processes	X
X	
X.2.4 Interactions between physical, biological, and chemical processes	X
X.3 Sensor and system technology relevant to HABs	X
X.3.1 Sensors related to HAB research	
X	
Physical sensors	
X	
Optical sensors	
X	
Biological sensors	
X	
Chemical sensors	
X	
X.3.2 Sensor platforms	
X	
Remote sensing systems	
X	
Ships	X
Moorings and bottom tripods	X
Drifters and floats	
X	
Autonomous underwater vehicles, remotely operated vehicles, and gliders	X
X.4 Sensor and system design of HAB monitoring and assessment programs	X
X.4.1 HAB systems and sensors	
X	
X.4.2 Data analyses	X
X.5 Summary and conclusions	X
